XII. CONSOLIDATED PLAN GOALS

The funding priorities for this application process will be based on the City's approved Five-Year Consolidated Plan and will be prioritized by the City Council annually. The Consolidated Plan outlines a coordinated strategy to guide the City's efforts to address housing and community/economic development needs for the next five years. A citizen outreach effort was conducted to determine the needs and priorities of the City of San Diego. The following represents goals that can be addressed with the CDBG funds being made available through this application process for Capital Improvement Projects:

- ☐ Create a better living environment for persons with special needs.
- ☐ Improve the condition of the City's housing stock and facilities that serve special needs populations, including group homes.
- ☐ Support the continued revitalization of low and moderate income neighborhoods.

Explain how the proposed project addresses goal selected in the preceding page. Include any supporting statistics or other factual information related to supporting the importance of addressing the need, including any increases and/or improvement to services provided.

XIII. PERFORMANCE OUTCOME MEASURES

As of 2006, the U.S. Department of Housing and Urban Development (HUD) has instituted performance measures to gather information and determine the effectiveness of programs funded with CDBG, ESG, HOME and HOPWA. Information obtained on the local level will be reported by the City to HUD, which will enable HUD to describe performance results as the National Level. HUD's outcome performance measurement system has three objectives and three outcomes which are listed below.

A. Select one of the following that best fits your project objective:

☐ Suitable Living Environment:

This objective relates to activities that are designed to benefit communities, families, or individuals by addressing issues in their living environment (such as poor quality infrastructure) to social issues, such as crime prevention, child care, literacy, or elderly health services. It includes improving the safety and livability of neighborhoods, increasing access to quality facilities and services, and revitalizing deteriorating neighborhoods.

☐ Decent Housing

This objective focuses on housing programs possible under CDBG where the purpose of the program is to meet individual, family, or community needs and not programs where housing is an element of a larger effort, since such programs would be more appropriately reported under suitable living environment.

☐ Creating/Expanding Economic Opportunity:

This objective applies to the types of activities related to economic development, commercial revitalization or job creation.

B. Select at least one of the following that best describes the outcome your project will achieve:

☐ New or Improved Availability/Accessibility:

This outcome applies to activities that make services, infrastructure, public facilities, employment opportunities, housing or shelters available or accessible to low/moderate income people, including persons with disabilities. In this category, accessibility does not refer only to physical barriers, but also to making the affordable basics of daily living available and accessible to low/moderate income persons where they live.

☐ Affordability

This outcome applies to activities that provide affordability in a variety of ways in the lives of low/moderate income people. It can include the creation or maintenance of affordable housing or basic infrastructure hook-ups, or services such as transportation or day care.

☐ Sustainability:

This outcome applies to projects where the activity or activities are aimed at improving communities or neighborhoods, helping to make them livable or viable by providing benefit to low/moderate income persons.

C. Anticipated Project Outcomes:

Complete the chart below to describe the most significant outcome(s) this project is expected to have on its participants. Tell how many households or individuals will realize each outcome and how each outcome will be measured. Copy chart and attach to describe additional outcomes, if applicable.

Outcomes:	Outcomes are not the activities of the agency, but the benefits for the participants. Outcomes are related to overall project effectiveness. Outcomes are NOT the number of persons served or the number of service units. Outcomes are the end result of providing the activity. Describe how participants will benefit and how many are expected to realize this outcome. What will be the benefits for the clients? Focus on outcomes within the organization's control, utilize reasonable available data and have conditions that are well defined and measurable. Examples of outcomes include # affordable housing units rehabbed or # of curb ramps installed.
Major Tasks:	Outline the major tasks/activities to be conducted by this project (e.g. site preparation, construction/rehab, site inspections, etc.).
Benchmarks:	List the timeline for anticipated start and completion dates for each major task listed.
Outcome Measurements:	Describe evaluation tools, methods and benchmarks to measure achievement of each outcome. How will you measure the outcomes? How will the project's impact on participants be evaluated?

**FY 2011 CERTIFICATION
REGARDING USE OF REAL PROPERTY**

The standards described in this certification apply to real property within the owner's control which was acquired or improved in whole or in part using CDBG funds in excess of \$25,000. These standards shall apply from the date CDBG funds are first spent for the property until five years after closeout of an owner's participation in the entitlement CDBG program or, until five years after the closeout of the grant from which the assistance to the property was provided per 24 CFR Part 270.505.

(a) An owner may not change the use or planned use of any such property (including the beneficiaries of such use) from that for which the acquisition or improvement was made unless the City provides affected citizens with reasonable notice of, and opportunity to comment on, any proposed change, and either:

(1) The new use of such property qualifies as meeting one of the national objectives in § 570.208 (formerly § 570.901) and is not a building for the general conduct of government; or

(2) The requirements in paragraph (b) of this certification are met.

(b) If the City determines, after consultation with affected citizens, that it is appropriate to change the use of the property to a use which does not qualify under paragraph (a)(1) of this certification, it may retain or dispose of the property for the changed use if the City's CDBG program is reimbursed in the amount of the current fair market value of the property, less any portion of the value attributable to expenditures of non-CDBG funds for acquisition of, and improvements to, the property.

(c) If the change of use occurs after closeout, the provisions governing income from the disposition of the real property in § 570.504(b)(4) or (5), as applicable, shall apply to the use of funds reimbursed.

CONFLICT OF INTEREST AND PROCUREMENT POLICIES

The undersigned certifies that the listed applicant organization is not in violation of, or has not participated, and will not participate, in the violation of the following Conflict of Interest and Procurement Policies:

24 CFR 570.611 and 24 CFR 576.57 (d) - Conflict of Interest

No person who is an employee, agent, consultant, officer, or elected or appointed official of the grantee, nonprofit recipient that received CDBG or ESG amounts and who exercises or has exercised any functions or responsibilities with respect to assisted activities, or who is in a position to participate in a decision making process or gain inside information with regard to such activities, may obtain a personal or financial interest or benefit from the activity, or have an interest in any contract, subcontract, or agreement with respect to thereto, or the proceeds thereunder, either for him or herself or for those with whom he or she has family or business ties, during his or her tenure, or for one year thereafter. HUD may grant an exception to this exclusion as provided in 24 CFR 570.611 (d) and (e).

OMB Circular A-110 - Codes of Conduct

The subrecipient shall maintain written standards of conduct governing the performance of its employees engaged in the award and administration of contracts. No employee, officer, or agent shall participate in the selection, award, or administration of a contract supported by Federal funds if a real or apparent conflict of interest would be involved. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated therein, has a financial or other interest in the firm selected for an award. The officers, employees, and agents of the subrecipient shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors, or parties to subagreements. However, subrecipients may set standards for situations in which the financial interest is not substantial or the gift is an unsolicited item of nominal value. The standard of conduct shall provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the subrecipient.

ASSURANCE OF AUDIT REQUIREMENTS

Subrecipients of Community Development Block Grant (CDBG) and Emergency Shelter Grant (ESG) funding that expend \$500,000 or more in total Federal financial assistance in a year are responsible for obtaining an independent audit in accordance with the Single Audit Act of 1984 and OMB Circular A-133 as referenced in 24 CFR 85.26. The undersigned attest that the listed applicant organization expended \$ _____ in the past fiscal year (FY 2009) in Federal financial assistance as defined above, and therefore an audit _____ **IS** _____ **IS NOT** required. Our most recent fiscal year ended _____.
